ANCHORSPEEDY

The ANCHORSPEEDY by Palmer Safety is an anchorage connector that can be conveniently disposed of after use. It is specially designed to fit a range of wood roof pitches and meets all relevant OSHA regulations. Installing and removing the ANCHORSPEEDY is easy and hassle-free. Simply adjust it to fit over the roof ridge of your choice and use all the installation holes to nail it into the roof truss.

CAPACITY: 1 user: 130 – 420 lbs. (including all clothing, tools, and equipment)

DESIGN:

- Lightweight and durable
- Easy to Install
- Length: 16"
- One-time use only. Must be disposed of after one installation.
