

## TECHNICAL SPECIFICATIONS

### Guardrail Warning Line Stanchion

The Guardrail Warning Line Stanchion is a great option for creating a safe zone around the fall hazard at your worksite. This product helps you to set up a warning line system that blocks your workers from accessing the dangerous areas, reducing or eliminating the need for other fall protection equipment. The Guardrail Warning Line Stanchion is durable and weather-resistant, as it is made of powder-coated steel. It is also easy to install and transport, as it weighs only 35 pounds and has a convenient handle. It has a height of 39 inches and can be used with most warning lines (not included).
